# Motoring Update – January 2026

## Welcome to 2026!

Happy New Year! I hope you all enjoyed a wonderful festive season and had the chance to relax and recharge with family and friends. As we kick off 2026, I'd like to share some exciting updates and highlights from our motoring community.

We've also been working closely with you through events, feedback sessions, and most recently the Outback Car Trek survey. Your input is invaluable in shaping experiences that truly matter, and we're grateful for your continued engagement.

We wrapped up 2025 on a high note! A heartfelt thank you to everyone who took part in Drive 4x4 the Doc. Thanks to your incredible commitment and generosity, we achieved the third-highest fundraising total in the event's history—a true reflection of the passion and spirit that define this community.

Looking ahead, I'm thrilled to announce the April 2026 Bright Smiles Charity Ride, supporting the RFDSSE Dental Program. This year's route will focus on the Northern Rivers Region, helping communities recently impacted by floods. It's an opportunity to make a real difference while enjoying the camaraderie and adventure that define our events.

2026 promises to be an extraordinary year for the motoring events community, with a calendar full of exciting and impactful experiences. I'm looking forward to being on the road with you, attending as many events as possible—not only to champion the RFDS but to connect with the passionate community that makes these events so special.

Your enthusiasm and dedication inspire me every day, and I look forward to another year of unforgettable motoring adventures with purpose.

# 2025 DRIVE 4x4 THE DOC

Drive 4x4 the Doc took off yet again in November 2025. This was a big one for two reasons: it's the first time that the event has been owned by the RFDSE and it raised the 3rd most donations in its 10-year-long history, with over \$79,000 for the RFDS.

This week of stunning 4x4 driving brought together the most participants ever - 52 dedicated drivers - all united by their dedication to support rural healthcare access. This continues its upward trend for participant numbers year after year. What followed was four days of camaraderie, breathtaking scenery, and a shared commitment to making a difference.

## Day 1: Mallacoota to Mallacoota via Cann River

The adventure began in Mallacoota, with a scenic loop through lush forests and winding roads. Spirits were high as participants gathered for a festive "Christmas Lunch" hosted by the warm and welcoming Cann River Community Centre. The decorations, laughter, and sense of community set the tone for the days ahead.

## Day 2: Mallacoota to Corryong via Bendoc

Day two brought rugged beauty and a touch of history. After a hearty stop at the Bendoc Hotel, the participants crossed the iconic Snowy River, a moment that reminded everyone of the region's rich heritage and natural wonders. The journey to Corryong was filled with stories, photo stops, and plenty of smiles.

## Day 3: Corryong to Tumbarumba

The third day was a feast for the senses. Morning tea was served at the spectacular Mt Elliot Hang Gliding launch pad, offering panoramic views that left everyone in awe. Lunch at Braymont Gardens provided a tranquil setting to recharge before continuing through rolling hills and charming country roads.

## Day 4: Tumbarumba to Tumbarumba via Batlow

The final day celebrated resilience and surprise encounters. Lunch at The Apple Thief in Batlow highlighted the region's recovery from devastating bushfires, showcasing how the community has bounced back stronger than ever. As if nature wanted to leave us with one last unforgettable memory, participants were treated to the sight of wild brumbies roaming freely – a truly iconic moment that captured the spirit of the high country.

**Stay tuned for the official announcement of the 2026 Drive 4x4 the Doc route, set for 17–21 November. You won't want to miss what's in store!**

# Community Spotlight:

## The Martin Family's Incredible Support

On Friday, 5 December, a number of RFDS and Trek community members attended the Martin Family Fundraiser Lunch in Bangalow, a truly special annual event. Held in memory of Oli Martin, the lunch raises vital funds for the Royal Flying Doctor Service South Eastern Section (RFDSE).

Each year, the Martins host this gathering on the weekend closest to Oli's birthday, and this year's event took place at the historic Bangalow A&I Hall, with catering by Figtree Restaurant and a bar run by the Bangalow Lions.

Over the past four years, the Martin family has raised an extraordinary \$250,000 for RFDSE. For Oli's brother, Harry, the lunch has become more than a fundraiser, it's a ritual of remembrance and contribution.

But the lunch is only part of their story. Each year, Pete and Harry take on the Outback Car Trek as Car 612, raising significant funds and awareness as they journey through some of Australia's most remote landscapes.

Together, the Martins' efforts typically raise \$60,000–\$70,000 annually, supported by the generosity of the Byron community. The Martin family's dedication—through their annual lunch, Trek participation, and advocacy—is inspiring and deeply appreciated. As we stood with Peter and Harry at the fundraiser, we were reminded of the extraordinary impact that passion and community can have. Their efforts not only honour Oli's memory but strengthen the lifeline RFDS provides to those who need it most.

## Remembering Jim O'Mahony - CAR 1869

We were saddened to hear of the recent passing of Jim O'Mahony, a long-time supporter and participant in the Outback Car Trek.

Jim first entered the Trek in 1996, driving a Tooheys-branded car from Griffith to Broome. At the time, Jim was the Managing Director of Tooheys, and his enthusiasm for fundraising was unmatched—his team topped the fundraising tally on the 1997 Trek from Kempsey to Cooktown.

Between 1996 and 2003, Jim completed six Treks, even flying back from his role in Shanghai to join the 1999 and 2001 events. His dedication to the Trek and its mission was unwavering, and his adventurous spirit was evident—whether navigating remote outback roads or tackling challenges like getting bogged on the beach during the 2003 Trek from Forbes to Yeppoon.

Jim spent many years living and working overseas, most recently in Roujan, France, with his wife Sandy. His contribution to the Trek and the RFDS cause will always be remembered, and we extend our deepest condolences to his family and friends.

# Your Voice Matters—And We Listened

A big thank you to everyone who completed our recent Outback Car Trek survey. Your feedback was clear and inspiring: Trekkers love the spirit of the Trek and want it to stay true to its roots. That means keeping the focus on participant experience, event logistics, and fundraising for the Royal Flying Doctor Service.

The RFDS is proud to champion this vision. The Trek isn't just an event—it's a tradition, a community, and a lifeline for remote Australians. Every improvement we make is guided by your input and our shared mission to raise vital funds while delivering an unforgettable adventure.

## Why We Trek: The Heartbeat of Our Community

When we asked what motivates you to join the Outback Car Trek, the answers were clear and inspiring:

- Supporting RFDS – mentioned by 87% of respondents
- Adventure & travel – 75% mentioned
- Community & camaraderie – 71% mentioned

This isn't just a rally—it's a movement. Every kilometre you drive helps fund life-saving services for Australians in remote areas. And every conversation at a dusty roadside stop strengthens the bonds that make this event so unique.

One trekker shared: "It's about giving back while having the adventure of a lifetime."

These motivations guide how we design future treks—keeping the spirit of adventure alive while deepening your connection to RFDS.

## Your Feedback Shapes the Future—Carefully

We asked, you answered—and the message is clear: trekkers value the traditions that make the Outback Car Trek special. While ideas like alternate length treks and tech tools are exciting, most respondents said the current level of RFDS engagement and event structure is "fine as is."

That doesn't mean we're standing still. We'll keep refining the details—better food consistency, clearer route instructions, and more storytelling—without changing the heart of the Trek.

Evolution, not revolution. We'll preserve the camaraderie and adventure that define the Trek while introducing improvements at a pace that feels right.

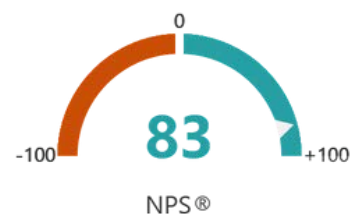

## Why Our Trekkers Are Our Biggest Advocates

The Outback Car Trek achieved a **world-class** Net Promoter Score of 83.1—proof that our community isn't just satisfied, they're passionate ambassadors.

This loyalty drives word-of-mouth growth and strengthens your mission to support the Royal Flying Doctor Service. High NPS means trekkers aren't just satisfied—they're advocates.

### Why it matters for your Trek Experience:

- Share your passion for the Trek and inspire others to join the adventure. Every conversation, every connection helps grow our community and amplify the impact for RFDS.
- Small experience upgrades are coming to make the Trek even better for everyone.
- Stay Connected: If something's not right, we'll act quickly to resolve it and maintain the trust that makes this community strong.

"Thank you to every trekker who took the time to share feedback on the Outback Car Trek. Your insights are invaluable and are already helping me shape the future of this event. I'm committed to keeping the spirit of the Trek alive while introducing improvements that matter most to you."

Matthew Tosolini, Head of Motoring Events, RFDS South Eastern Section
